Resolution:	Product Issue Opened	**FAQ Links:**	

Description

Supportanfrage

1) request to remove the displayed details as depicted in 2020-01-27_16h19_44.png or to make this configurable

  2020-01-27_16h19_44.png
2) Provide the possibility to copy the version details via CTRl-C (clicking the list of affected products, version etc. takes too much time)

  2020-01-27_16h22_38.png
3) instead of naming all the system component files with default_*, remove default with the name of the project.
4) properties of Services are sometimes not displayed. The scenario is displayed in Video, see 2020-01-27_16h29_31.mp4

Lösung

    1) request to remove the displayed details as depicted in 2020-01-27_16h19_44.png or to make this configurable

I created a Minor Feature Request to move it to tooltip (ACORE-10355).
To make it configurable is not a good choice to reduce complexity regarding rescaling and layouting.

    2) Provide the possibility to copy the version details via CTRl-C (clicking the list of affected products, version etc. takes too much time)2020-01-27_16h22_38.png

I created a Minor Feature Request to make it selectable (ACORE-10357).

    3) instead of naming all the system component files with defaul_*, remove default with the name of the project.

I created a Minor Feature Request to make it setable when creating a new project (ACORE-10358).
Basically a session is independent from a project so giving a project name prefix might not be the best generic solution.

    4) 2020-01-27_16h29_31.mp4 properties of Services are sometimes not displayed. The scenario is displayed in Video

I created a Critical Bug Issue for analyzing (ACORE-10359).
Trying to reproduce and fix, currently Known Problem.

- Support Level changed from 2nd Level to 3rd Level

Hi Bane,

　　1) request to remove the displayed details as depicted in 2020-01-27_16h19_44.png or to make this configurable

I created a Minor Feature Request to move it to tooltip (ACORE-10355).
To make it configurable is not a good choice to reduce complexity regarding rescaling and layouting.

　　2) Provide the possibility to copy the version details via CTRl-C (clicking the list of affected products, version etc. takes too much time)2020-01-27_16h22_38.png

I created a Minor Feature Request to make it selectable (ACORE-10357).

　　3) instead of naming all the system component files with defaul_*, remove default with the name of the project.

I created a Minor Feature Request to make it setable when creating a new project (ACORE-10358).
Basically a session is independent from a project so giving a project name prefix might not be the best generic solution.

　　4) 2020-01-27_16h29_31.mp4 properties of Services are sometimes not displayed. The scenario is displayed in Video

I created a Critical Bug Issue for analyzing (ACORE-10359).
Trying to reproduce and fix, currently Known Problem.
