History

#1 - 2020-02-04 08:35 - hidden

- Project changed from 5 to Public Support
- Status changed from New to Customer Feedback Required
- Private changed from Yes to No
- Topic set to ADTF::CE
- Resolution set to Product Issue Opened
- Product Issue Numbers set to <https://www.cip.audi.de/jira/browse/ACORE-10380>

Hi Bane,

I created a Minor Feature Request (ACORE-10380) to suggest the connected name (default text in Text Box).

Teaser:
ADTF 3.7 will provide a scripting mechanism for CE, e.g. for automization during drag/drop, connect, naming and stuff if the basic rules does not fulfill your requested use case

#2 - 2020-02-04 09:00 - hidden

- File 2020-02-04_08h58_43.png added

Please note this is not a minor request
As you can see in 2020-02-04_08h58_43.png this slows down the testing. Please provide the 3.7 beta asap for internal testing.

#3 - 2020-02-04 09:06 - hidden

Hi Bane,

it will be planned into ADTF 3.7.
And can be solved as well with the CE Scripting, but yes, in 3.7

Anyway... you will get help in 3.7 but it is definety a minor request in case functionality, could not be the same and highest feature level as e.g. CAN features, hardware acceleration and stuff.
So please be patent for our planning and delivery.

#4 - 2020-02-04 19:30 - hidden

+1 :)

#5 - 2020-02-13 14:56 - hidden

- Subject changed from Configuratin Editor: Default Pin Name shall assigned automatically to Default Pin Name for dynamic pin
- Description updated

#6 - 2020-02-13 14:57 - hidden

- Status changed from Customer Feedback Required to To Be Closed

#8 - 2020-07-07 12:49 - hidden

- Status changed from To Be Closed to Closed
