Support Anfrage:		
<p>I am looking for a way to exchange data between ADTFv3 and ADTFv2. I saw that on tutorial website there is a prepared page for it. Could you send me some materials to this topic, if there are any? Otherwise, would it be possible to create socket and send data over localhost between the two instances of ADTF (v2 and v3)? Is there a better/easier way of doing this? Thank you</p>		
Lösung:		
<p>You can find more information in the manual of the ADTF 3 Support Toolbox Please be aware that on ADTF 2.x side you will need ADTF Version 2.14.x for usage of the Support Toolbox!</p>

Hello Jakub,

please have a look at the manual of the [ADTF 3 Support Toolbox](#)

Please be aware that on ADTF 2.x side you will need ADTF Version 2.14.x for usage of the Support Toolbox!

Please let us know if this answers your question?
