<b>Description</b>		
<b>Support Anfrage:</b>		
<p>I am looking for a way to exchange data between ADTFv3 and ADTFv2. I saw that on tutorial website there is a prepared page for it. Could you send me some materials to this topic, if there are any?</p> <p>Otherwise, would it be possible to create socket and send data over localhost between the two instances of ADTF (v2 and v3)? Is there a better/easier way of doing this?</p> <p>Thank you</p>		
<b>Lösung:</b>		
<p>You can find more information in the manual of the <a href="#">ADTF 3 Support Toolbox</a></p> <p><b>Please be aware that on ADTF 2.x side you will need ADTF Version 2.14.x for usage of the Support Toolbox!</b></p>
