Resolution:	Product Issue Opened	FAQ Links:	
Description			
Supportanfrage			
Ich habe wieder feedback verbunden mit einer Frage für euch:			
It looks like the CAN Support Service just supports one DBC file per CAN Channel. (Property is of type cFilename)			
It was quite handy in ADTF 2 that you could use multiple DBC files per CAN channel. So I wonder whether this will no longer be supported in ADTF 3, or is it just a bug that will be fixed in the next releases?			
Viele Grüße,			
Anja			
Lösung			
Das scheint ein Bug zu sein, die Properties sollen auf cFilenamesList geändert werden, ich habe dazu ein Ticket angelegt (ADEVTB-1825)			
Workaround: Ihr gebt die Liste in den Properties händisch ein, Komma separiert, das geht. Künftig wird auch Semikolon unterstützt			

History

#1 - 2020-06-17 13:32 - hidden

- Project changed from Public Support to 7
- Status changed from New to In Progress
- Customer set to ELEKTROBIT
- Department set to SUPPORT

#2 - 2020-06-17 13:33 - hidden

- Affected Products ADTF Device Toolbox 3.2.0 added

#3 - 2020-06-17 14:36 - hidden

- Description updated
- Status changed from In Progress to Customer Feedback Required
- Topic set to DeviceTB::CAN
- Resolution set to Product Issue Opened
- Product Issue Numbers set to <https://www.cip.audi.de/jira/browse/ADEVTB-1825>
- Support Level changed from 2nd Level to 3rd Level

Hallo Anja,

das scheint ein Bug zu sein, die Properties sollen auf cFilenamelist geändert werden, ich habe dazu ein Ticket angelegt (ADEVTB-1825)

Workaround:

Ihr gebt die Liste im Property händisch ein, **Komma** separiert, das geht. Künftig wird auch Semikolon unterstützt

#4 - 2020-06-19 09:09 - hidden

Ok, danke. Dann könnt ihr das Ticket hier schließen.

Danke und Grüße,
Anja
