#### Description

##### Supportanfrage

We are trying to use the adtf\_launcher command line with the parameter "-speed=x0", with no success. We tried also =0, =X0, ="x0", ="X0", and also 8 instead of zero, but ADTF does not set properly the speed (remains x1). Can you please let me know what is the correct syntax?

Entire command line:

```
"%ADTF2_DIR%\bin\adtf_launcher.exe" "%WD%\config\adtf_devenv.manifest" -globals="%WD%\config\globals.xml"
-config="%WD%\config\system.xml" -active="Converter" -run -playlist="playlist.datpls" -speed="X0" -quit -nosplash
```

btw - is it possible to pass a single file, instead of a playlist?

##### Lösung#

This is a known bug <https://www.cip.audi.de/jira/browse/ACORE-8005>

also see ADTF changelog.txt

#30364 [Session Service] -speed has no effect in combination with -playlist as arguments in Command Line

Workaround (not generic)

```
set Harddiskplayer fixed speed value
```

leave out -playlist="", so -speed works correctly.

example:

```
adtf_launcher.exe
D:\ADTF\2.13.3\bin\adtf_devenv.manifest
-stdout
-nosplash
-run
-active=Playback
-project="D:\__support\#\playback\playback.prj"
-quit
-speed=x4
-skip_broken_dat_files
-logfile="D:\__support\#\playback\log.txt"
```
