Customer:	AUDI	Product Issue Numbers:
Department:	AEV	Affected Products: ADTF Device Toolbox 2.7.0
Requester's Priority:	Normal	Platform: Windows 7 64bit
Support Level:	2nd Level	Topic: DeviceTB::CAN
Resolution:	Not Supported Scope	FAQ Links:
Description		
Support Anfrage:		
<p>I have a question regarding the CAN Config Codec Ext from ADTF's Device Toolbox, v2.7.0: Is it possible to compose the configuration from several XML files? E.g. by specifying multiple configuration files or by having a dummy XML configuration that contains include or import statements? I haven't seen anything about in the devicetoolbox.pdf-documentation file and wasn't able to find something about it in the devicetoolbox.chm-documentation file. However, I think I have seen this feature somewhere.</p>		
Lösung:		
<p>It is not possible to include parts from other buffer configuration files. The only thing you can do is importing structures from header (see chapter 2.6 Configuration tree in devicetoolbox.pdf).</p>		

History

- Status changed from In Progress to Customer Feedback Required
- Resolution set to Not Supported Scope

Hi Tim,

it is not possible to include parts from other buffer confifuration files.

The only thing you can do is importing structures from header (see chapter 2.6 Configuration tree in devicetoolbox.pdf).

Hello Tim,

have you received the Information from Florian?
Can we close the ticket?

Best regards
Matthias

#5 - 2019-08-21 12:37 - hidden

Hi Matthias,

yes, I've received an answer. The ticket can be closed.

Regards
Tim
