Supportanfrage			
3D Camera Position not persisted when restarting config			
Lösung			
Unfortunately the persistent storage of settings, values, etc. is something which is not yet addressed within ADTF 3. As soon as there is a mechanism within the ADTF3 Core providing the described functionality all the Toolboxes including the DisplayToolbox can make use of this feature.			
I am sorry that there is no valid method of achieving this at the moment.			
I opened a product issues addressing this feature. https://www.cip.audi.de/jira/browse/ACORE-10305
